- 25X1 3. On 21 June, four JS-3 tanks [REDACTED] and a rifle company armed with machine guns, submachine guns and rifles were observed practicing in the training area south of the Panzer Kaserne. Infantry and tanks attacked an imaginary enemy in the former Muenfeicher concentration camp. Two tanks advanced ahead of the troops, received cover and protection by two other tanks, which provided continuously protective fire. The tanks advanced in echelon formation about 100 meters apart from each other. The infantry did not immediately follow the tanks but advanced in deployed formation in line with the tanks, firing with rifles and throwing smoke hand grenades. The tanks and riflemen were followed by two SP guns with JS chassis at about 1,000 meters. (1) 25X1
4. On 26 June, the Panzer Kaserne in Neubrandenburg was occupied to capacity. The engineer unit also had returned to the post. (3) Seven pontoons were again observed at the engineer training site on the Tollense Lake. 25X1
